MAIN REQUIREMENTS FOR ECONOMIC OPERATORS

When offering the Latvian national flag or the Latvian national flag pennant on the market, the manufacturer, its authorized representative or importer is obliged to ensure the implementation of the Cabinet of Ministers Regulation No. 405 "Regulations for the Application of the Latvian National Flag Law", which includes the technical requirements regarding the manufacture of the Latvian national flag, the Latvian national flag pennant and their images, the manufacture of the flagpole and the flagpole, as well as their use. The requirements include instructions on the colour tones to be used, the density of the fabric, the durability, the fire safety, the opacity of the materials, the materials to be used, etc.
