MAIN REQUIREMENTS FOR ECONOMIC OPERATORS

Ultraviolet radiation (hereinafter - UVS) devices that are placed on the market and made available on the market for use in the provision of cosmetic tanning services must meet the following requirements:

1. USV equipment is equipped with working hours and tanning time meters, ventilation systems and automatic disconnection system.
2. The maximum effective UVS level generated by USV equipment does not exceed 0.3 W/m², as evidenced by:
 - 2.1. UVS equipment technical documentation,
 - 2.2. declaration of conformity or measurement results issued by the lamp manufacturer.
