

PROCEDURE FOR METROLOGICAL CONTROL OF MEASURING INSTRUMENTS

SCOPE

Metrological requirements for measuring instruments before they are placed on the market and put into use

LATVIAN REGULATIONS

Cabinet Regulation No. 624, adopted October 14, 2014 "[Procedures for the metrological control of measuring devices and initial verification marks](#)"

PRIOR AUTHORISATION

Before placing measuring instruments on the market, national type approval must be performed by the Latvian National Metrology Institution, whose functions are performed by limited liability company "Latvian National Metrology Centre" division "Metrology bureau" (Phone: +371 67517728, E-mail: latmb@latmb.lv) and before putting into use national initial verification must be carried out in inspection bodies accredited by the National Accreditation Body

MAIN REQUIREMENTS FOR ECONOMIC OPERATORS

Provides:

- the procedure for metrological control (type approval and initial verification) of measuring instruments subject to State metrological control;
- samples of initial verification marks of measuring instruments;
- the procedures for market surveillance of measuring instruments subject to State metrological control.

Measuring instruments for which national type-approval and initial verification has been carried out and marked with a type-approval mark and which bear the initial verification mark shall be placed on the market and put into use.
